10	75.03	850.84	-	-

Standard Tints:- 130 Bronze, 133 Grey, Opal 30%, Opal 50% (UV +5%)

PC is available in a range of tints, textures and anti-reflective grades. Tints: bronze, grey and opal with a highly smooth finish and film protection to both sides are part of our stock range. Other tints, plus matched colours are available on request. Please ask our sales team for further information

Textures: produced in two coarse patterns ice and tex to one side and a smooth, film protected surface to the reverse. Applications range from balcony or shower screens to lamp covers.

Anti-reflective: With a fine texture to one side and film protection to both, this anti-reflective product prevents glare. As with standard, PC anti-reflective is easy to form and is popular within the advertising market.

RPC: produced only in black and stocked with a textured finish to one side. RPC is highly resistant to UV light making this product ideal for outdoor uses as well as thermoforming applications.

PC virgin colours are available on application. They are UV protected for many outdoor applications where the qualities of PC are required. Minimum quantities may apply even for standard colours; colour matching is a minimum 1000kg

Thickness (mm)	kg/ea	3050 x 1250mm	
		RPC	Colours
2	9.15	83.08	131.21
3	13.73	124.67	196.89
4	18.30	166.16	262.42
