

Nylon 6 cast sheet / *natural* / *black (MoS2)* / *blue*

Cast nylon 6 (PA 6C) sheets are stocked in natural, black and blue and are available in thicknesses from 8mm to 100mm. Cast 6 is accepted as the primary engineering material, suitable for virtually any plain bearing application. Demonstrating similar characteristics to 6.6, cast 6 has significantly lower stress levels combined with high strength, good creep and wear resistance.

Black (MoS2) has improved sliding properties, wear resistance, lower surface friction and like all black products has enhanced UV resistance over natural.

Thickness (mm)	kg/m	1000mm Wide		
		Natural £/m	Black (MoS2) £/m	Blue £/m
