

# PE2 - PE4 (PE 1000 regenerated) pressed & planed sheet / green / black

PE2, PE4 (PE 1000 regenerated) is a pressed product with a planed surface to both sides. It is a cost effective alternative to PE 1000 virgin grade.

It is widely appreciated that this grade offers similar performance levels as virgin grade PE 1000, however PE 2, PE 4 offers few guarantees to its ongoing performance under technical applications.
