Premierbond HT • White

Hybrid MS polymer technology • Premium grade • 290ml cartridge & 600ml foil

Product description: Premierbond HT (hybrid MS polymer technology) is a premium quality, professional adhesive/sealant. Offering high tack properties, Premierbond HT has initial bond strength double that of most other grab adhesives and bonds to vertical applications. Suitable for interior and exterior use.

Overall benefits • Shelf life: 18 months

- Curing time 24 hrs • Permanently flexible • High tack properties
- Wet room environments • Paintable
- Non-corrosive towards metals • UV, moisture and mould resistant

Premierbond SF • White

Solvent free bonding adhesive • Economy grade • 300ml cartridge

Product description: Premierbond SF (solvent free) is a high quality, versatile dispersion based adhesive. Suitable for all PVC wall cladding installations. This high strength adhesive can be used to fix PVC sheets to walls providing a strong and durable bond. Suitable for interior use.

Overall benefits • Shelf life: 12 months

- Curing time 72 hrs • Solvent free • Replaces nails and screws
- Paintable • Non-corrosive towards metals • Easy to apply and clean

Premierbond 2PT • White

Part A contained in a bucket • Part B contained in a sealed sachet • 6.5kg

Product description: Premierbond 2PT is a two-component polyurethane adhesive. The formulation has been designed to give ease of mixing for notched scraper applications. This filled adhesive has been formulated for the bonding of U-PVC and GRP sheets to most building substrates, including brickwork, plaster, concrete, block-work etc. Suitable for interior and exterior use.

Overall benefits • Shelf life: 6 months

- Tough, long lasting resilient bond • Resistant to water, solvents and heat
- Full sheet coverage • Minimal bubbling • Cure as you mix part B
